

OUTLINES.

The New York State Democratic convention is having a lively time over the proposition to instruct its delegates to the Denver convention for W. J. Bryan, a sub-committee on resolutions last night reported against instructing by a vote of 6 to 1 and today the question will go before the convention. For the first time since the strike of the street car men occurred, nine days ago, cars were run in Pensacola, Fla., yesterday, the State troops are still on guard. Judge George Gray's letter declining to allow his name to be presented at the Denver convention was unheeded by the Delaware State convention, its delegates being unanimously instructed "to support, advocate and vote" for his nomination. Simon Lake, president of the Lake Torpedo Boat Co., was a witness before the Submarine Boat Investigating committee and denied several statements that had been made by Representatives of the Electric Boat Co., previously on the stand. A number of prominent men appeared before the House Committee on Banking and Currency; some of them favored the Aldrich bill and others vigorously opposed it. President Roosevelt sent a message to both branches of Congress advocating four new battleships. The Senate listened to a speech by Senator Foraker on the Brownsville affair and the House discussed the naval appropriations bill; the sum of \$100,000 as recommended by the committee for improving and developing the naval station at Olonago, Subig Bay, was allowed to stand. Battling Nelson has signed articles to fight 45 rounds with "Boer" Unholz on May 16 at San Francisco. The battleship fleet has arrived at San Diego, Cal., and was welcomed by Governor James N. Gillett of that State; at night a banquet was served. Two more bodies have been recovered from the ruins of the big Chelsea fire, making five in all; it is believed that more still remain in the ruins as a number are missing. New York markets: money on call easy, 1-1/2 to 1-3/4 per cent; ruling rate 1-3/4, closing bid 1-1/2, offered at 1-3/4, time loans a shade firmer; spot cotton closed quiet, 10 points lower, middling uplands 10.00, middling gulf 10.25, no sales; flour quiet and barely steady; wheat No. 2 red, 99-1/8 elevator; corn, firm, No. 2, nominal elevator; oats steady, mixed 55; rosin quiet; turpentine steady, 52.

Lillian Russell's mother has died, but she is well supplied with mothers-in-law.

Alfred Gwynne Vanderbilt at least had the decency to suppress the details of his nasty divorce scandal.

The street car strike in Pensacola is as nice and orderly as if it were in some Illinois or Pennsylvania town.

What the Massachusetts Republicans really said was; we prefer Taft, of course, but fear our platform is not strong enough to bear him.

The Ohio-Iowa-Massachusetts Republican tariff plank simply means that the Republicans dare not revise the tariff before election and will not do it after election.

There seems to be a very general impression abroad to the effect that the best way to improve the Aldrich bill would be to strike out all after the enacting clause.

The harmony at some of the Republican conventions is thick enough to cut with a knife and many of the delegates can be depended on to have their knives handy. Sometimes a razor is used.

It is said that before October next, there will be a tremendous car shortage in this country. This is good news indeed. For some time past there has been considerable complaint because the side tracks were too short to hold the empty cars.

The American millionaires ought to adopt the one-price system and tag their daughters with plain figures. Then the various Dukes, Lords, Counts and other foreign Mollycuddies could know what to expect. In other words, they could take their choice and then go on back home.

Farmers of the Night Rider infested district of Kentucky are fleeing from their homes in great numbers and Louisiana is about to make a formal and determined effort to get some of them to locate within her borders. North Carolina offers plenty of peace and protection to home seekers and Kentuckians of the right sort would find a cordial welcome here.

They tell us that the great advance in the price of meats is due to the scarcity of cattle. When such a condition confronts the people of other countries they are permitted to draw their supplies from abroad. Why not reduce or abolish our tariff duties on imported meats and meat products? If this were to be done we believe it would be quickly proved that cattle are still plentiful in this country.

ITS ANNUAL MEETING

People's Savings Bank Has Just Closed Most Successful Year's Business.

OFFICERS AND DIRECTORS

Stockholders Eminently Pleased With Showing Made Yesterday—Over \$100,000 Capital and Surplus After Regular Dividend.

The eighth annual meeting of the stockholders of the People's Savings Bank was held yesterday afternoon at 4 o'clock in the handsome new banking rooms of the institution at north-west corner of Front and Princess streets. The meeting was well attended and one of the most satisfactory in the history of the bank.

The meeting was called to order by President H. C. McQueen and Mr. J. T. Foy, of Scott's Hill, was requested to act as chairman. Mr. F. W. Dick, the cashier, kept a record of the proceedings and it was ascertained that 1983 shares were represented either in person or by proxy. The most interesting feature of the stockholders' meeting was the annual report of the president, which was highly gratifying. The bank was reported in a highly satisfactory condition in every respect. Every department showed substantial increases during the fiscal year, especially since the recent absorption of the Carolina Savings and Trust Company's affairs. During the year more than 1,500 new accounts were opened up, not including those taken over with the Carolina Savings and Trust Company. After having recently paid the four per cent semi-annual dividend, the bank still has a little over \$100,000 capital and surplus.

The old board of directors was unanimously re-elected as follows: Messrs. H. C. McQueen, M. W. Divine, M. J. Corbett, Walker Taylor, J. A. Springer, Robert R. Bellamy, James F. Post, Thomas Wilson, of Cadess, S. C.; J. G. Barentine, Jos. T. Foy, James Owen Kelly, D. C. Love, Thos. H. Wright, R. R. Stone, E. C. Holt, C. C. Chadbourne, C. P. Bolles, Jr., Roger Moore, B. C. Moore and F. W. Dick. After the meeting of the stockholders had adjourned the directors assembled and re-elected all the officers as follows: President H. C. McQueen; Vice President M. J. Corbett; Cashier, F. W. Dick; Assistant Cashiers, J. Holmes Davis and Osborn G. Foard.

A COMMENDABLE WORK.

An Appreciation of Recent Lecture Here by Archdeacon Stuck.

As an appreciation of his recent visit and the lecture of Archdeacon Hudson Stuck in this city, a movement has been started to present to him an outfit of surgical instruments and other apparatus for use in the Alaskan fields by Dr. Grafton Burke, recently graduated from the medical department of Sewanee, and who will accompany the archdeacon when he returns to his labors early in June. Soon after Mr. Stuck's lecture he was asked how his audience for the very interesting lecture which he gave might express their appreciation of his visit and he told his interviewers that nothing would please him as to furnish this portion of the equipment for the young physician who is to accompany him when he returns to the "frozen North." The gift will be an ideal one of its kind and will be forwarded as soon as it is ready.

The Date Moved Up.

Mr. D. L. Gore, of this city, a member of the Executive Committee, yesterday received a letter stating that the dates of the annual meeting of the North Carolina Cotton Manufacturers' Association at Wrightsville Beach, have been moved up a week, the convention to be held beginning June 25th instead of the 18th as heretofore announced. The changed dates are on account of the conflict with the Firemen's tournament which will also be held here.

The Theatrolum.

The Theatrolum, on Market street, has been purchased from parties at Charleston, S. C., by Mr. A. T. Brice, formerly with the Coast Line, and the pretty little house of amusement has been reopened. Moving pictures and illustrated songs are being offered at the five-cent admission. Mr. Geo. Sellers, a popular singer, has been engaged and is now being heard with much pleasure by patrons of the place.

CONVICTS MADE A BREAK

Dash For Liberty Frustrated Yesterday Afternoon—Two Escaped but One is Speedily Recaptured—Fired Upon by Guard.

Seven of the long term convicts on the county chain gang in East Wilmington made an unsuccessful effort to break for liberty yesterday evening between 5 and 6 o'clock as the force of fifty-eight men from the quarry was being driven in the stockade for the night. Two of the number succeeded in making their escapes, but the others were held at bay by the guards and one of the two who secured their liberty was afterwards recaptured.

From what was subsequently learned from the prisoner who was recaptured, seven of the long-term men for several days had been discussing a plan to make a break and at a given signal yesterday evening, Louis Jackson, serving two years for carrying a concealed weapon and resisting an officer, and Frank Nance, serving two and a half years for highway robbery, succeeded in getting beyond the bounds and made a dash for some woods stretching toward the Newbern railroad. Foreman J. O. James, Guard Smith and a third guard fired eleven times at the retreating figures with their shot guns, but both managed to reach the underbrush, though Nance fell twice and clasped his ankles as if he had been hit. Superintendent Hocutt was just returning from the work on the Masonboro road and hastily left in search of the men. Foreman James had already captured Jackson on a short distance away but Nance has not since been caught though the guards are close on his trail. Jackson showed fight when he was overtaken by Foreman James, who drew his gun and made the negro drop a stick with which he was making at the officer. Later Constable Savage joined the searching party for the missing convict and the officers remained out all night in an endeavor to locate Nance. The others in the conspiracy to break away were Oscar Johnson, serving five years for slashing the throat of young James Brockett, a white man, several months ago; Ben Richardson, a notorious negro thief serving five years; Walter Moore, serving five years for robbing the Southern Express Company where he was employed as a porter; Garfield Pearson, two years for carrying a concealed weapon and resisting an officer, and the two named above. The guards were successful in holding the others at bay, while they took an occasional shot at the two fugitives.

For the arrest of Nance a reward of \$25 will be paid with all necessary expenses. He is described as being 135 or 140 pounds weight, ginger cake color, high forehead and nose depressed. All the men concerned in the dash for liberty had served only a short time of their sentences, and that more of them did not get away is a compliment to the excellent management of the camp.

HOLY WEEK AT ST. JAMES.

Services This Evening, Maundy Thursday and Good Friday.

There will be a short service this evening at 8:15 o'clock at St. James Episcopal church with final confirmation lecture by the rector. Confirmation services will be held on Thursday evening at 8:15 o'clock immediately before the Maundy night service.

The services on Good Friday will be at 7:30 A. M., the three hours' devotion from 12 to 3 o'clock with readings at this service from the Bishop of London's writing. On Good Friday evening, after a brief service, the Choir of St. James will render Sir John Stainer's "Crucifixion." This rendition by the choir will be most solemn and at the same time most uplifting. All who attend are requested to be in their places certainly by 8:15 o'clock, as no one will be admitted after the exercises begin.

Bishop Strange returns today from Newbern and will officiate at the confirmation at St. James tomorrow evening; at St. John's Easter Sunday morning and at the Church of the Good Shepherd on Easter Sunday night.

The Southside Revival.

The series of services which have been in progress with so much success at Southside Baptist Church during the past ten days will close with the sermon tonight by Rev. R. D. Haymore, of Mt. Airy. Dr. Haymore has done a great work at Southside and will return home for a few days rest before going to engage in a similar meeting in Georgia. The pastor, Rev. G. A. Martin, was ill during most of the meeting but he had the active support of Rev. Dr. Hale and Rev. C. F. Whitlock and a good work has been done. All are invited to hear the final sermon this evening at 7:45 o'clock.

Sale of Water Works Bonds.

There is local interest in the fact that recently the town of Maxton, N. C., offered water works and sewerage bonds in the sum of \$50,000 to run for 30 years. S. A. Kean, of Chicago offered \$50,500 for six per cent bonds and to take 5-1/2 per cent bonds upon a par basis. Robinson, Humphrey Company, of Atlanta, offered a "hand-some premium" for six per cent. The commissioners decided not to accept the bids but to further negotiate with prospective buyers.

GLENN NOT IN RACE

Governor Addresses Letter to People of State Withdrawing From Senatorship.

THE NEWS FROM RALEIGH

Special Term of Harnett Court Called. Odd Fellows Gratified at Action Taken by Royal Arcanum. Other Notes.

(Special Star Correspondence.)

Raleigh, N. C., Apr. 14.—Governor Glenn gave out this morning a lengthy statement in which the announcement is made that he will not be a candidate for the United States Senate, but will support Senator Overman. The statement in full is as follows: To the People of North Carolina:

Answering many letters daily inquiring my intentions, I desire to say, I will not be a candidate for the United States Senate, but will support the re-nomination of Senator Overman. Having said this much, I hope I may be pardoned for making the following statement:

"The greatest ambition of my life has been to be a member of the Senate of the United States, for I hoped with the opportunities there offered for usefulness and power, I could by zeal and energy have accomplished much for the fame and name of our beloved State. Six years ago I entered the race for this honor, but in the interest of harmony retired in favor of Hon. C. B. Watson. Today for harmony in the State, and to prevent any bitterness, I have decided not to present my name as a candidate.

An influential man in the State thus writes me: 'I travel a great deal. I believe you can win; the masses of the people are with you; the contest, however, will be fierce, and I fear will do the State harm.' I want no harm—only good to the State, hence the above statement.

"Senator Overman asks a renomination as an endorsement of his course. I have had a strenuous administration; the adjustment of the State debt on an honorable basis, the caring for our helpless ones, especially the insane; the rigid enforcement of the law against mobs and lynchings, and at the same time bringing speedy punishment to offenders that caused such mobs; personal efforts made to protect our forests, open our waterways and harbors, as well as advertise the resources of our State at home and abroad; upholding State sovereignty and demanding obedience from all citizens; fixing railroad rates, alike just to the people and railways, resisting weight discriminations and now trying to pass State prohibition; these and many other important matters have been greatly discussed, and brought North Carolina much before the public gaze, and it is therefore but natural that I too should desire that the people endorse and approve my course. Still Senator Overman took his office, having a right, if he does well, to ask an endorsement, while I knew I could not succeed myself as Governor, and have, therefore, no reason to be hurt because I cannot be re-elected. Letters have come to me from friends in every part of the State urging me to run, and saying I could be nominated, and so having ambition to serve my people in this capacity, the temptation to offer myself has been very great.

"I am not vain enough to say I could be nominated, but the people made me what I am politically, and I would not fear again to put my destiny into their hands, and I don't believe that even those who ridicule the suggestion of my succeeding, will violently insist upon a reconsideration of my decision simply that they might have the pleasure of seeing me defeated. But I have given the matter careful and prayerful consideration, and I feel that I am doing right, and in coming to my conclusion two things have actuated me: First, to serve the State by preventing a bitter contest, and second, and I hope a still higher motive, to help humanity.

"My record for temperance is neither new nor heresy, for I point to my official acts as contained in the journals of the Legislature of 1881 and 1888, and as Governor, and I would regard it as the crowning glory of my administration to have the sale and manufacture of strong drink prohibited in the State. To this end I will give all my spare time, my zeal and my influence, for we need and must have a large majority, thus showing the people's will and determination to enforce the law. With hostile persons and newspapers saying I was making this canvass for prohibition as a stepping stone for my own political advancement, or hoping on the crest of a big temperance victory to ride into the office of Senator, the effects of my campaign would be weakened and my sincerity doubted, so desiring to be untrammelled by thoughts of self, but only acting for what I honestly believe is the State's greatest good I lay aside my ambition.

"Having therefore, the welfare of the State at heart in wishing prohibition to win by a very large vote, I appeal to all who are interested in this

MEARES VS WOLFENDEN

Superior Court Engaged All Day Yesterday Hearing Testimony in Interesting Suit For Recovery of \$25,000 Attorney's Fee.

THE WORK A REVELATION

Waste Place Has Been Made Veritable Garden of Productiveness and a Hive of Industry—Members of The Party.

The Superior Court was engaged all day yesterday with the hearing of the testimony for the plaintiff in the suit of Iredell Meares, Esq., of the Wilmington bar, against J. J. Wolfenden and the estate of the late J. A. Meadows, of Newbern, in which the plaintiff asks for the balance of an attorney's fee of \$25,000 for professional services in connection with the purchase and sale for the defendants of the famous Green Swamp lands in Brunswick and Columbus counties.

The jury had been secured when court took recess for the day on Monday afternoon and yesterday plaintiff's testimony was begun. It appears now that it will require the entire week for the trial of the case. The testimony is being taken in shorthand by Mr. Meares Harris and it is voluminous, consisting not only of oral testimony but much documentary evidence, all of which has to go in the record. Mr. Meares, the plaintiff, was on the stand when court took a recess at 5 o'clock yesterday afternoon until 9:30 A. M. today. Mr. Meares had completed his direct testimony and was about to be turned over to the defense for cross-examination when the end of the day's hearing came. The plaintiff will submit some documentary evidence first thing today and then Mr. Meares' cross-examination will be commenced by W. W. Clark, Esq., of Newbern, and Hon. Jno. D. Bellamy, for the defense. Appearing for the plaintiffs are Messrs. Rountree & Carr, Ricard & Empe, Herbert McClammy and Robert Ruark.

Mr. Meares was on the stand giving his direct testimony all of yesterday except for a short time, when Mr. W. G. Sale, manager of the Western Union was introduced to prove certain telegrams that had passed between the parties to the suit, and when Mr. E. H. Sillman, sales manager of the Waccamaw Lumber Company, was introduced to tell of his connection with the purchase of the lands from Mr. Wolfenden and others. A number of witnesses, including Stephen McIntyre, of the Lamberton bar, and John Gilchrist McCormick, Esq., formerly of Lamberton, have been summoned to testify in the case.

STRAWBERRY MOVEMENT.

Cool Weather Has Retarded Ripening to Some Extent.

The cool weather of Sunday and again yesterday has had the effect of retarding the ripening of strawberries in the Wilmington belt and yesterday and the day before the shipments were not so large as on Saturday when nine car loads went forward from the Chadbourne section. Today, however, from eight to ten cars are expected to move and the volume of the shipments will increase from day to day until the season is over, unless there is some unexpected set-back.

The first shipment from the St. Helena colony of Italians went forward from Burgaw yesterday and consisted of eight crates by express. Shipments by express were also quite heavy yesterday from Rocky Point and other stations on the Wilmington & Weldon railroad. Shipping Agent Bauman and the office force will leave today for the junction office at South Rocky Mount, where they will direct the movement and see to it that all cars are properly loaded and moved promptly. This service is invaluable to the grower and Mr. Bauman is in better position than ever before to look after the interests of the shipper. The ice plant at Chadbourne has from 35 to 40 cars iced in reserve and will be well prepared to take care of the movement for the next week or ten days.

CAROLINA HEIGHTS PROPERTY.

First Lots are Sold—Improvements and Restrictions Specified.

The first transfers of property in the Carolina Heights tract, just north of the Market street road to the National cemetery and opposite Carolina Place, were made yesterday. For a consideration of \$500, Mrs. Maud Wood Miller purchases a lot at north-east corner of 18th and Princess streets, 50x165 feet in size, and William L. Miller and wife, for \$1 and other considerations, purchase the lot adjoining, on north side of Princess 50 feet east of 18th street, 50x165 feet in size. Both sales are subject to the conditions that no liquors or ardent spirits shall ever be sold on the premises; no dwelling house shall be erected costing less than \$1,500, and the property shall never be sold or rented to persons of African descent. A system of uniform sidewalks, water and sewerage are to be laid on Market and Princess streets before October 1st 1908.

Police Court Yesterday.

With several continuances, there were but four cases before the Mayor yesterday, none of them important. A couple of sailors corraled by Officer C. G. Jones for over-indulgence upon completion of their voyage, were let off upon payment of costs. Martha Howard, colored, arrested by Officer B. W. Jacobs for being disorderly at Third and Brunswick streets, was given 30 days on the county farm.

A TRIP TO ST. HELENA

Italian Colony Near Burgaw Visited by Prominent Party of Citizens Yesterday.

THE WORK A REVELATION

Waste Place Has Been Made Veritable Garden of Productiveness and a Hive of Industry—Members of The Party.

When the 8:40 train on the Wilmington and Weldon railroad pulled out from this city yesterday morning it carried a special coach, filled with guests of the Carolina Trucking Development Company, bound for St. Helena, the Italian colony located by that company on the line of the railroad about twenty miles above Wilmington.

In the car were between fifty and sixty men representing the various business interests of the city. There were merchants, real estate men, bankers, financiers, railroad men and newspaper representatives, among the last Mr. R. W. Vincent, of the Charlotte Observer.

When St. Helena was reached the car was shunted to a side track and the visitors were welcomed by the citizens of the colony headed by their local band. The crowd of sightseers dispersed over the colony district, and what they saw was a revelation to them. Where three or four years ago was a vast tract of swampy land supposed to be unproductive and valueless was found well cultivated farms with neat cottages, inhabited by a thrifty class of people. Here can be seen what energy and pluck can do. Out of the wilderness have sprung productive farms.

The visitors spent several hours walking over the farms inspecting the work that has been and is still being done. Here they saw a farm well cultivated and producing all kinds of vegetables, here on that was just being prepared by a new arrival, whose whole family was hard at work grubbing stumps and getting the ground in condition for planting. Thrift and hard work are the order of the day. Men, women and children work in the field, and all seem happy and contented. In one field, clearing up a new ground were seen four women and five men each wielding a mattock or an axe, digging up stumps and roots. The women work as hard as the men. Cleanliness is the order of the day.

These people are not of the class of Italians who are seen in the slums of our cities, but are of an entirely different race. They are from Northern Italy and closely allied to the Germans—a frugal, hardworking and law-abiding people. They are of the blond type and have the appearance of Northern Europeans rather than of the Latin race.

In the colony there are now about two hundred and fifty people. They have a community blacksmith shop where all the work of this kind is done. There is also a community store conducted by members of the colony where its members can purchase their provisions at cost price.

The houses are small but remarkably neat and clean. The yards or right of way are as clean as any parlor floors and there are evidences of the gathering around them by the settlers of the conveniences of life.

There is also a neat church in which religious services are held twice a month by a priest from Wilmington. After wandering over the colony for several hours the visitors collected at the depot where they were again treated to good music by the local band which played "Dixie" as a farewell to the train to which the car was attached pulled out for Wilmington at 12:30 o'clock.

On the way up Mr. Hugh MacRae made a few remarks to the party explaining the object and purposes of the company, detailing what had been done and setting out what the company expected to do in the way of developing this section of the State through immigrants of this class.

On the return, just before reaching the city Mr. Allen Taylor was called on for a speech. He tendered, the thanks of the party to Mr. MacRae for the pleasant outing and pictured in glowing terms the future of this section if Mr. MacRae was upheld by the people in his endeavor to settle the waste places with a productive class of immigrants. He closed his speech by proposing that the people of Wilmington should do all in their power to aid Mr. MacRae in his endeavor to build up this section through immigration; should urge upon the next legislature the necessity of establishing the "no-fence law" in this section and the importance of measures calculated to increase the kind of immigration that has built up the colony of St. Helena.

The outing was a pleasant one and also a great revelation to all who were on the excursion. It showed the possibilities in the way of turning our heretofore supposed worthless lands into productive farms and of making garden spots out of what were before

ALASKA A GREAT BARGAIN.

Not so very long ago it was a popular pastime for some people to ridicule the act of those who were responsible for the purchase of the Alaskan territory by the United States. It is now, in fact, it has been known for some time, that it was in reality a mighty shrewd bargain, a most paying investment.

In spite of the comparatively undeveloped state of Alaska, its contribution of wealth to the United States has been so great in recent years and the contributions in the near future promise to be so enormous that there is little doubt that Russia has more than once regretted that she sold us the territory for a mere bagatelle of \$7,200,000.

When the purchase was made in 1867, it was regarded by the general public as a waste of money, but subsequent events have established the fact that as a result of the bargain this government acquired vast riches.

Already the business of the territory compares favorably with that of the most valuable of our insular possessions.

In his recent report, Mr. Clarence L. Hobart, Collector of Customs for Alaska, says:

"The figures for the last month in 1907 are not yet available, but estimating the business for that month on the basis of the preceding monthly average the Philippine Islands, and Porto Rico did a total trade in 1907 of \$67,221,684 and \$57,307,088 respectively, while Alaska's total for the same period is \$48,425,330. Eliminating the foreign trade and taking account only of receipts and shipments to and from the United States, Alaska makes a still better comparative showing, its total for 1907 being \$45,609,947, while the Philippines were credited with only \$23,000,000 and Porto Rico with \$49,550,000. It must be remembered also that while Porto Rico and the Philippines are old, settled lands, Alaska is a new country, whose principal development has been a matter of little more than a decade."

In the last ten years Alaska has in round numbers produced \$265,000,000 in gold and mining experts predict that within the next decade more than three times that amount of the precious metal will be taken out by improved dredges each of which is equivalent to a labor force of 1,000 men. Indeed the Alaskans look forward confidently to the time when their territory will surpass South Africa in its yield of gold. Aside from the production of gold, copper, tin and gypsum the development of the salmon industry is sure to add enormously to the wealth which Alaska is creating. Even at the present time the one item of canned salmon yields a yearly revenue greater than the sum paid Russia for the entire territory, and it is said that if not an ounce of gold had been found its fisheries alone would have made it a good commercial investment.

Great as the progress has been in the last ten years, the Alaskans, we are told, are looking forward to a wonderful development and increase of business when better roads and better transportation facilities are secured.

Up to this time, the lack of these has proved a serious drawback.

On the entire Western coast of the Territory, for instance, there are only three lighthouses and such facilities as the ports have for handling commerce are very crude and unsatisfactory.

The fact, however, that Alaska has great possibilities as a wealth producer has dawned on Congress and the territory is to be given more consideration in the matter of appropriations for roads and harbors than it has hitherto received from the Federal government and in addition an efficiently organized territorial government.

In order to attract the proper attention to its marvelous resources, Alaska is preparing, in connection with the Yukon territory and the Pacific coast for a great exposition to be opened at Seattle next year.

THE MOSQUITO DANGER.

For years the city of New Orleans has each season suffered from the mosquitoes which have each season put in an early appearance and remained late. The pests have become more or less notorious over the entire country and their reputation as the most vicious of their kind has had considerable influence in working an

incalculable injury to the city in question.

Frequently in discussing a proposed trip to that section of the country some one of a party would be almost sure to bob up with a remark to the effect that there was nothing doing in the New Orleans line until the mosquito season was over.

This year, however, the word has gone forth that New Orleans is practically free from the pest and all the inhabitants and prospective visitors are consequently in great glee.

This is attributed to the fact that the citizens have been more than ordinarily careful in looking to the drainage about and the general cleanliness of their premises.

It has been demonstrated to them that with fewer mosquitoes there will be less sickness than usual. This is the theory advanced by the doctors and the good people of New Orleans took hold of the matter with much enthusiasm. It is already given out that much good has resulted.

Why wouldn't it be a good idea to take hold of the mosquito business here in Wilmington and do it right now. Do you remember ever having been troubled with mosquitoes? How many sleepless nights have you spent on their account?

It is now a well known fact that stagnant water in the gutters along the eaves will breed mosquitoes, and so will water left in old tin cans in back yards.

Experts say that the mosquito seldom goes very far from its birthplace, so whenever the disquieting buzz is heard, one may look close at hand for the source of the nuisance.

Individual effort is necessary to the elimination of the mosquito. If everybody would "clean up" and keep that way, the mosquito would be very little known in this city and there would be fewer doctor's bills to pay. Don't tell us that the Wilmington supply is bred in the low swampy places across the river. Those that are brought into existence in that locality, according to the scientists remain there. The fellow who sings in your bed room and feeds on your blood was reared nearer home. Clean up that back yard. Get your neighbor to do the same, and you may yet have have mosquitoes but we firmly believe you will have fewer of them than before.

SOME IMMIGRATION FIGURES.

The movement of people to and from the old world as indicated by the official reports from the port of New York is attracting considerable attention and in view of rapidly recovering industrial activity in this country, some apprehension.

It appears that since Jan. 1, 1908 some 169,160 foreign laborers have left there shores for their former home, while only 67,173 of the same class have arrived to take their places. The outgoing list for the first quarter of this year exceeds that of last year when there were 57,926 who returned to their homes by 111,234.

If this ratio should be kept up the fear is that the return of prosperity may be hindered by lack of laborers. It is recalled that during the days of 1906 and 1907 the scarcity of laborers was felt all over the country and the loss of any considerable number of men available for the fields, factories, etc., will be a serious matter later on.

It is noted, too, that the class going home are of the kind that can be least spared, most of them being persons who have been industrious, hard working and provident. When it is remembered that there is a falling off of 174,688 immigrants this year from that of the same period last year and that 111,234 more foreigners have departed than have come in, there would seem to be ground for the belief that there will at least be no serious overflow of the labor market when the "wheels all get to running again."

The Bureau of Immigration offers the assurance, however, that most of those who have gone home will return and that they will bring back with them many of the kind we most need.

ITALIAN DAY OF REST.

Step by step the so-called emancipation of labor advances.

The working classes of Italy have just gained a substantial victory by the enactment of a law, which has already gone into effect, directing that all industrial and commercial concerns throughout the kingdom must grant their employees a weekly rest of not less than 24 consecutive hours.

There is no attempt to apply the new law to transportation services, either rail or water, to the distribution of newspapers, to places of amusement or to any of the public utilities, as it is the intention of the authorities to permit absolute freedom for the recreation and amusement of the working classes.

The general purport of the law is that Sunday shall be the day of rest,

but in those cases in which individual or public rights would suffer, the period of rest may fall on any other day.

While economic, social and hygienic causes have produced the new law, the secular completely overshadowing the spiritual and the ecclesiastical still stands the ancient admonition to remember the day of rest and keep it whole—because it is the sensible thing to do.

Need Medicine?

For Women's Ills

When you need a medicine for women's ills, we urge you earnestly to take Cardui.

Cardui is a woman's medicine. It is not for men, nor even for such women as do not suffer from any of the ills peculiar to women.

It is not a cure-all, but a genuine medicine, of real scientific value in certain forms of disease—the diseases to which only women, are liable.

Hence, you should take Cardui, if sick, when you feel that you are suffering in this way, and you may take it in perfect safety and in confidence.

Mrs. Bettie Arp, of Menlo, Ga., writes: "I have been using Cardui with the greatest benefit. I was troubled with female-complaint for twelve (12) months. The doctors treated me for four months. They did me but little good, so I took Cardui and I believe it saved my life."

Sold by all druggists. Try it.

MEN OF EARLIER AGES.

Were They the Mental Peers of the Men of Today?

The general idea that our enormous advances in science and command over nature serve as demonstrations of our mental superiority to the men of earlier ages is totally unfounded. The evidence of history and of the earliest monuments alike goes to indicate that our intellectual and moral nature has not advanced in any perceptible degree. In the second place, we find that the supposed great mental inferiority of savages is equally unfounded. The more they are sympathetically studied the more they are found to resemble ourselves in their inherent intellectual powers.

Even the so long despised Australian savages, almost the lowest in material progress, yet show by their complex language, their social regulations and often by an innate nobility of character indications of a very similar inner nature to our own. If they possess fewer philosophers and moralists, they are also free from so large a proportion of unbalanced minds—idiots and lunatics—as we possess. On the other hand, we find in the higher Pacific types men who, though savages as regards material progress, are yet generally admitted to be physically, intellectually and morally our equals. If not our superiors. * * * Thirdly, we have no proof whatever that even the men of the stone age were mentally or morally inferior to ourselves.—Alfred Russel Wallace in Fortnightly Review.

A Curious Form.

The most curious form, or, rather, expression, of grace after meat which I have ever come across was that customary at Clifford's Inn, one of the vanished inns of chancery. The society consisted of two distinct bodies, the principal and rules and the Kentish mess, each body having its own table. At the conclusion of the dinner the chairman of the Kentish mess, first bowing to the principal of the inn, took from the hands of the servitor some small rolls or loaves of bread and, without saying a word, dashed them several times on the table, after which they were taken away. Solemn silence reigned only by the thumps prevailed during this curious substitute for a verbal grace.—Cor. London Chronicle.

Instinct and Reason.

Instinct is the generic term for all those faculties of mind which lead to the performance of actions that are adaptive in character, but pursued without necessary knowledge of the relation between the means employed and the ends attained. Reason refers to those actions that are adaptive in character and that are pursued with knowledge of the relation between the means employed and the ends aimed at. Such is the technical statement of the difference between instinct and reason, but the real, basic difference between the two faculties is unknown and probably unknowable.—New York American.

Thackeray's Pink Bonnets.

Thackeray was fond of putting pink bonnets on such of his lady characters as were to be specially fascinating. The eternal Becky wore one, the mushy Amelia wore one on her wedding tour (very probably on her second one also), and the dashing Bessie also set off her beauty by this means.

AT ST. THOMAS' CHURCH.

Holy Week Being Observed With Ap-
propriate Services There.

Tomorrow morning (Maundy Thurs-
day) there will be a Solemn High
Mass at St. Thomas' Catholic Church
at 9 o'clock after which there will be
a procession through the church to the
Altar of Repose. Perpetual adora-
tion will be kept up during the day.

The following day being Good Fri-
day and one of special devotion, Mass
of the Pre-Sanctified will be celebrat-
ed at 9 o'clock after which there will
be a procession. The solemn cere-
mony of the unveiling of the Cross will
take place before the Mass. The Good
Friday service is the most unique in
the Catholic church. Devotions com-
memorative of the last words spoken
by Christ on the Cross will take place
at 2:45 P. M. At 8 o'clock on that
evening there will be Stations of the
Cross and a sermon on the death of
Christ by the Rev. Wm. B. Hannon.

On Saturday morning the blessing
of the Baptismal water, etc., will take
place at 7 o'clock and at 8 o'clock
there will be the litany of the Saints
and High Mass. On Easter Sunday
the morning services will be at 7 and
10:30 A. M. At the latter service there
will be a High Mass and a sermon on
the "Risen Saviour" by Father Han-
non. On Sunday, the 26th of April,
the Rt. Rev. Leo Hald, D. D., will de-
dicate the New Italian Church at St.
Helena at 10:30 o'clock. The Bishop
will preach on that occasion.

New Church at High Point.

Architect H. E. Bonitz has prepared
plans and specifications for a hand-
some new \$10,000 house of worship
for the Woman's Lutheran Memorial
Church, of High Point, N. C. The
building will be erected largely by the
women of the North Carolina Luth-
eran Synod and it will be a very hand-
some structure. Mr. Bonitz has a
genius for church architecture and
has recently prepared the plans for
some of the finest houses of worship
in the State.

Victim of Drug Habit.

B. E. Lear, a young white man who
from all appearances is a victim of
the drug habit, was arraigned before
Justice Furlong yesterday on a charge
of the larceny of an umbrella, valued
at \$16, from Mr. Hugh Turrentine.
The defendant waived examination and
was re-committed to jail in default
of \$25 bond. Lear lives in the north-
ern part of the city and has a wife.

Thrown From Bicycle.

Mr. J. D. Sidbury was the victim
of quite a painful accident Saturday
night. He was riding a bicycle to his

thought to be lands that were not
worth paying taxes on. Any citizen
of Wilmington will be well repaid by
visiting this thrifty colony and seeing
what can be done by immigration
when properly conducted.

There are two things which convince
one that this enterprise is going to be
a success. One is the perfect system
of the company in its management of
the colony and the other is the thrift
and persevering work of the colonists.
The latter are willing to do hard work
for the success they know is bound to
be the result of their labors.

PROHIBITION CAMPAIGN

Vigorous Work to be Done Between
Now and Election.

As the result of a conference yester-
day morning at the Y. M. C. A. with
Rev. C. W. Blanchard, State Organizer
of the Anti-Saloon League, local pro-
hibitionists have decided upon a vigor-
ous campaign from now until May
26th when the election is to be held.
Rev. Mr. Blanchard visited Castle
Haynes Tuesday night and made a
striking address to the voters of that
vicinity. He returned to the city yester-
day morning and conferred at some
length with the local prohibitionists
in regard to the manner of conducting
their campaign in this county. It has
been decided to have Governor Glenn
speak here on the 22nd of April not
in the Academy of Music but from an
improvised stand to be erected at
Seventh and Market streets. In this
way it is hoped to interest a very large
number of people and the meeting
will be well advertised.

Mrs. Curtis, of Texas, National Or-
ganizer of the W. C. T. U. in the United
States, will be here on Saturday,
the 25th instant, and will speak at
one of the Wilmington churches. A
number of local speakers are also to
be drafted for the campaign and a
series of appointments will soon be
made for the city and county. One of
the latter will be a big rally and fish
fry on Masonboro Sound early next
month. At this meeting there will be
a prominent speaker and the people
for miles around are expected. It is
also hoped to have soon some of the
other State speakers to come to Wil-
mington.

The meeting yesterday was well at-
tended and enthusiastic Chairman
Fennell, of the local anti-saloon league
and a number of the pastors and prom-
inent laymen of the Wilmington
churches were in attendance.

FOURTEEN INNING GAME

Third Street Devils and Invincibles
Played to a Standstill.

Fourteen innings to a standstill was
the result of a game of baseball yester-
day afternoon between teams de-
signating themselves "Third Street
Devils" and "The Invincibles." The
score stood five to five at the end of
the fourteenth inning when the game
had to be called on account of dark-
ness. The teams lined up about as
follows:

Devils.	Devils.
Rorison, H.....c	Morris, C.
Williams,.....p	Davis, R.
Merriman,.....1b	Parsley, R.
Reaves,.....2b	Strange, T.
Alderman,.....3b	Wright, T.
Bell, H.....ss	Rutland, R.
Robertson,.....lf	Ellis, R.
Rorison, J.....cf	Ashe, K.
King,.....rf	Nash, J.

The feature of the game was the
phenomenal pitching of Williams for
the Invincibles. He struck out 17 men
during the game and played his posi-
tion in other respects equally as well.

FOR AND AGAINST BILL.

Committee on Banking and Currency
Hears Witnesses.

(By Wire to the Morning Star)
Washington, April 14.—Vigorous
support and of unusually vigorous de-
nunciation of the Aldrich bill entered
into today's hearing on that measure
before the House Committee on Bank-
ing and Currency. The morning ses-
sion was taken up by former Comptrol-
ler of the Currency Dawes, who
brought into play all his powers of
argument to persuade the committee
that an elastic emergency currency was
provided for in the Aldrich bill is vital
to the financial safety of the people
at this time. Argumentative tilts be-
tween Mr. Dawes and Chairman Fow-
ler and other members of the commit-
tee were frequent. The President of
the American National Bankers' As-
sociation and bankers from New York
and New England were heard for and
against the bill at the afternoon ses-
sion. The committee adjourned until
10:30 o'clock tomorrow.

great moral movement to help us, by
their influence as well as by personal
work. There is no politics in this
movement, but a question on which all
parties, creeds, and conditions can
unite, and I therefore call on all who
hold dear, home and loved ones, peace
and quiet, law and order, and who de-
sire to promote both the business and
moral interests of the State to take
an active part in this great struggle
for civic righteousness. The victory
will be won and then, though I will
never be endorsed for the efforts I
have made to help my State in this
and other great matters that my ad-
ministration has settled for the State's
upbuilding and glory, I will still feel
that I have done some good and can
enjoy the approval of my conscience.

"Enforcing the rate law against rail-
roads violating it, calling the Legis-
lature in special session when the pan-
ic came to do justice to both railroads
and people, and now helping the cause
of temperance by advocating prohibi-
tion, was done solely in the interest
of what I conceived was right, and I
believe when the benefits are felt as
they will be, will receive the approval
of all good citizens.

"My public position has enabled me
to reach thousands of people that oth-
erwise I could not have met, and I
only hope I may have used this oppor-
tunity for the upbuilding of the State
and the improvement of the people,
especially the young.

"That I have made mistakes I admit,
but in serving the State have done the
best I knew how, and as I saw the
right. In my official position I have
known no party, condition or color,
but have tried to treat all alike, with
fairness and justice.

"And now I take this method of
thanking all my friends for their con-
fidence in me, for the loyal manner in
which they have upheld my adminis-
tration, and for their earnest wish to
advance my future. For the few who,
even when they knew I was trying to
do my duty, unceasingly misjudged
my motives and found fault with my
acts, I have no unkind word, but will
try to both forgive the wrong and for-
get the undeserved thrusts.

"There is a tide in the affairs of
men, which taken at the flood leads
on to fortune—and we must take the
current when it serves, or lose our
ventures.

"I know that the present is my 'flood-
tide,' and in refusing to take the politi-
cal current I lose all my 'ventures' and
surrender forever my ambition, but
there is one thing higher than ambi-
tion, and better than holding office,
and that is duty. My duty now calls
me to do something else than seek po-
sition. I respond to the demand with
no vain regrets or intention to 'sulk
in my tent' and with no selfish ends,
but only for the public good, I now en-
list for a big temperance victory in
May, and in November to battle for
pure Democrat and States rights.

"In conclusion, let me say that want
of means with new burdens incident
to recent afflictions, will prevent my
carrying out a cherished work for the
youth of the State, and will tie me
down to a life of toil, but if ever
again darkness overshadows our State,
or a crisis comes that demands relief
I will be ever ready to give my
strength, my voice, my influence and
my means to any work or movement
that will add to the prosperity of the
State, or to the protection and up-
building of the people.

"Again asking every one to aid in
the great fight for temperance and
with the kindest feelings and best
wishes for all, I am,

"Very respectfully,
"R. B. GLENN."

hibition campaign appointments, in-

ing and night.

CHILD'S NARROW ESCAPE.

South Wilmington Car Picked Up
Child on Its Fender.

A little child of Mr. Henryard Bor-
deaux had a very narrow escape from
death in a horrible manner yester-
day afternoon about 4 o'clock near
Front and Dawson streets. A South
Wilmington car in charge of Motor-
man Haddock and Conductor T. O.
Norris was proceeding north on its
regular schedule when the child ran
out on the track and but for the pre-
sence of mind of the motorman in drop-
ping his fender and the promptness of
the conductor in running forward to
pick up the child before the car stop-
ped, it would doubtless have been a
tragedy. The fender was dropped just
in time to catch the little one up and
the child only suffered a painful con-
fusion of the head. The street car men
did what they could for the baby and
a physician was later summoned.

Sheriff S. P. Cowan to Entertain.

DELAWARE IS FOR GRAY

Judge's Letter Declining to Allow His Name Mentioned in Connection With the Presidency Was Not Even Needed.

(By Wire to the Morning Star)

Dover, Del., April 14.—Despite the written declaration of Judge George Gray that he could not under any circumstances consent to have the delegates instructed for him, the Delaware State convention today officially placed his name before the Democracy of the country for that party's nomination for President of the United States. Judge Gray's declaration, contained in a letter to Thomas F. Bayard, chairman of the State committee which was read to the convention, came as a surprise to the delegates but they did not hesitate an instant to place his name in the field.

"It would indeed be a proud distinction to be the standard bearer of the Democratic party at this time and for such a cause. There are many reasons, however, why such a distinction is outside the range of my ambition, and these reasons compel me to say that I am unwilling that the delegates from this State to the Denver convention be instructed for me, as I can not under any circumstances consent thereto. You will therefore convey my wishes in this respect to the convention which is to assemble at Dover April 14, and express to it my most positive and emphatic request that delegates to be elected shall not be instructed to present my name to the Denver convention. In saying this I am not unkindful as I have already assured you of the long continued kindness and partiality of my friends in the Democratic party of this State, but I owe it to myself, and to them, to speak with perfect frankness as I have done."

There was no voice raised against the resolution to instruct the delegation of six to "support, advocate and vote" for Judge Gray's name. The platform adopted declares for unflinching devotion to State rights, criticizes the National administration and declares for a revision of the tariff.

Harmony prevailed in all the caucuses and in the convention. There was some discord in the Kent county caucus where the Bryan adherents had a majority but threatened trouble quickly disappeared when the caucus selected one Bryan and one Gray delegate as that county's representatives in the National delegation. In Delaware each of the three counties selects two of the six national delegates which selection is ratified by the convention. As the delegates are bound by the unit rule it makes no difference what the individual delegate's preference might be. All are bound to obey the instructions of the convention.

BIG DAM GAVE AWAY.

Damage is Estimated at \$250,000, But No Lives Are Lost.

(By Wire to the Morning Star.)

Helena, Mont., April 14.—Without warning the great dam at Hauser Lake on the Missouri river, 15 miles north of this city, partially gave way shortly before 3 o'clock this afternoon, causing damage estimated at \$250,000. No lives were lost and late tonight, as far as can be learned, no serious damage has been caused by the volume of water estimated at about 25 feet, which was precipitated into the channel below the structure. The narrowness of the river and its intertwining course has impeded the progress of the water and no great loss of property is anticipated in the towns and villages north of this city.

Hauser Lake dam, 70 feet high and 490 feet long, was completed last year at a cost of more than \$2,000,000 and developed a horse power of 25,000, which was utilized in operating the various power plants in Helena and the Butte mines and the Amalgamated Copper company smelter plants at Anaconda. The break in the dam side will not interfere with the operation of the mines and other plants as power is being furnished tonight from the canyon ferry dam and the company's substitution in Butte.

THE TIME LIMIT UP.

Interesting Situation Has Developed in Dispensary Cases.

(By Wire to the Morning Star.)

Asheville, N. C., April 14.—An interesting situation has followed the expiration of the period of four days allowed by United States Judge Pritchard to the State commissioners to file their supersedeas bond in the dispensary cases. It is now the duty of the receivers appointed by Judge Pritchard to wind up the dispensary affairs, to make a demand upon the State commissioners for the trust fund and collateral. These are locked in the State Treasurer's safe and that official is absent from the State. Judge Pritchard is understood to be acting in harmony with the views of Chief Justice Fuller of the Supreme Court of the United States, in fact having today received a letter from him relating to this subject, so that it may be fairly expected that in case of further conflict between the United States Circuit Court and the State courts and officials in this matter, Judge Pritchard is assured of the support of the highest tribunal in the land.

The Swine and the Flower

Oh me! I saw a huge and loathsome sty, Wherein a drove of wallowing swine were barred;

Whose banquet shocked the nostril and the eye; Then spoke a voice, "Behold the source of lord!"

I fled, and saw a field that seemed at first One glistening mass of roses pure and white,

With dewy buds 'mid dark green foliage nursed; And, as I lingered o'er the lovely sight, The summer breeze, that cooled that Southern scene,

Whispered, "Behold the source of COTTLENE!"

FLEET'S WARM WELCOME

Battleships Have Arrived—California Receives Both Officers and Men With Open Arms, Flowers, Music and Banquets.

(By Wire to the Morning Star)

San Diego, Cal., April 14.—The American battleship fleet sailed today on a summer sea. Sapphire water, reflecting the deep blue of a cloudless southern sky, tropical islands jutting the path of the western horizon, a mile of sandy beach crowded with enthusiastic patriots proud to welcome the navy to California and the green lawns and flowering gardens of Coronado, formed the setting for the most notable marine spectacle the west coast of the United States has ever known. In four regularly intervals columns, with flagships leading abreast and pointing the way to the first home anchorage, the fleet has found in its four months of cruising around the southernmost end of the western hemisphere, the sixteen ships swept into the sheltered cove of the sea behind the towering headlands of Point Loma and halted for four days of merrymaking for men and officers.

Governor James N. Gillett was here officially to welcome the fleet and his call was paid during the afternoon. The local committees also went to the Connecticut to tell Admiral Thomas and through him all the men of the fleet, how glad the people of California are to see such a splendid representation of the American navy.

Tonight Admirals Thomas, Sperry and Emery and the commanding officers and members of the various staffs were entertained at an elaborate but informal dinner at the hotel Del Coronado.

Rear Admiral Charles M. Thomas, commanding, was on the bridge of the Connecticut as the fleet steamed to its anchorage. The absence of Rear Admiral Evans who is ill at Paso Robles is deeply regretted on all sides. Admiral Thomas at the dinner referred to the matter with much feeling.

As soon as the Connecticut let go her anchors, Colonel Thomas Wilhelm, U. S. A., retired, on the staff of Governor Gillett as Assistant Inspector General, put out from the shore and was received on board the flagship. He presented the compliments of the Governor to Admiral Thomas and said the Chief Executive of California wished to call and pay his respects and formally extend a welcome to California waters.

Admiral Thomas replied that he would be glad to receive Governor Gillett and his staff at 2:30 P. M. At that hour the Governor accompanied by the uniformed members of his staff boarded the flagship.

As the party went on board from the starboard gangway the ships were manned and all the officers of the ship were drawn up attention on the forward deck. Governor Gillett was shown to the cabin, where Admiral Thomas received him. They returned immediately to the deck and there Governor Gillett made a brief address of welcome to California.

At the conclusion of the Governor's address Admiral Thomas called for three cheers for the Governor and the people of California. They were given with a will, the admiral himself leading.

As the governor was piped over the sides of the Connecticut a salute of 17 guns was fired in his honor.

Mayor John F. Forward, of the City of San Diego; William Clayton, director general of the fleet celebration committee, and U. S. Grant, chairman of the reception committee, also went aboard the Connecticut during the afternoon and received a cordial welcome.

The total value of Philippine imports last year was \$26,666,140, an increase of 15 per cent. over that of the preceding year. The total value of exports was \$34,127,253, an increase of 4 per cent.

SIMON LAKE A WITNESS

Tells Investigating Committee His Company Had No Idea of Selling.

(By Wire to the Morning Star)

Washington, April 14.—Simon Lake, president of the Lake Torpedo Boat Company, denied today before the special House Committee, investigating charges made by Representative Lilley against the Electric Boat Company, that the Lake company made overtures to the Electric Boat Company to sell its interests in this country as testified by President Rice, of the Electric Company.

On the contrary, he said, overtures were made to him by parties representing themselves as speaking for the Electric Company, to buy the Lake Company. He said he was given to understand that officials of the Electric Company desired that the present investigation be stopped. Mr. Lake said he declined to sell and informed one of the emissaries who came to him, Mr. Charles R. Flint, that his company had nothing to do with the investigation and could not stop it. He said he had no knowledge of any improper methods used by the Electric Company or his own company to secure legislation. He claimed that under the pending naval bill his company is shut out from competition. Former United States Senator John M. Thurston, of Nebraska, counsel for the Lake Company, was the only other witness of the day. He stated that the Lake Company was in no way responsible for the investigation; if he had known in advance of Mr. Lilley's intention to introduce his resolution he would have discouraged it, as it might endanger the appropriation by Congress for submarines.

BUG DEATH

One of the great growers of seed potatoes in Maine who has made a life study of Irish potatoes, has demonstrated beyond question that it is impossible to apply Paris Green to potato vines in any quantity without weakening the vitality of the tuber. Bug Death will not injure the plant but will stimulate its growth. It will not wash off, it is perfectly harmless to animals and people, and has a wonderful power to prevent blight, rust and these diseases so generally prevalent among melons and vegetables.

SPIRITS TURPENTINE

—Concord, April 13.—Fire broke out yesterday morning at 2 o'clock at the livery stable of J. M. Wood, when six horses and one mule were killed, three horses being burned almost to a crisp and the others suffocated from dense smoke and heat.

—Salisbury Evening Post: Mrs. Venus Horah Barringer, whose throat was cut by her husband several weeks ago, has left the Whitehead-Stokes sanitarium, having entirely recovered from her injuries. Mr. Barringer is still in jail but expects to be released on bond shortly.

—Asheville, April 14.—J. H. Hemphill, a well known citizen of Swannanoa township, this county was run over and killed late yesterday afternoon while attempting to cross the railroad tracks, eight miles from the city. Mr. Hemphill was about 60 years of age and quite prominent in his section.

—Roxboro, April 13.—The store of W. W. Woody, at Winstead, seven miles west of Roxboro, was burned last night with its entire contents. Mr. Woody had recently returned from Northern markets and had just received his purchases, many of which had not been opened. The loss is about \$5,000 with \$2,000 insurance.

—Goldsboro, April 13.—A big forest fire which started near Pinckney, N. C., had been at last reports about extinguished after having burned over about 100 acres of fine timber land belonging to different people of that neighborhood. The fire originated from an old burning stump, and was fanned by the high winds of Saturday and Sunday. It is hard to estimate the loss, but it is supposed to be considerably up in the thousands of dollars.

—Wilson, April 13.—Saturday night, while returning from up town while in the shadow of the colored Episcopal church, two negroes pounced down on Mr. Lattimore Whitley and dealt him two blows—one across the nose, the other over the right eye. He was rendered unconscious, and while in this condition was robbed of his purse, which contained about \$7.50. Mr. Whitley says he doesn't know who the men were—had no time to take their dimensions as he was knocked out so quick.

—Salisbury, April 13.—While driving home from a visit to friends in Cabarrus county late last night, Arthur Krimminger, aged nineteen years, was shot and instantly killed in the road by an unknown person. A shot gun was used with deadly effect when the young man was within one mile of his home. He had been driving with two young ladies and the killing is believed to have been the work of enemies. He was the son of W. R. Krimminger, a well known citizen of Cabarrus county.

—Asheville, April 13.—It was learned tonight that the papers in the case of the Southern Railway Company against the South & Western, instituted before Judge Pritchard Saturday afternoon and involving the charter rights of the two companies to certain rights-of-way in McDowell county, had not been served, owing to the absence of the deputy marshal for this district. The hearing is set for Thursday, but unless the papers are served tomorrow it is very probable that a continuance will be had for several weeks.

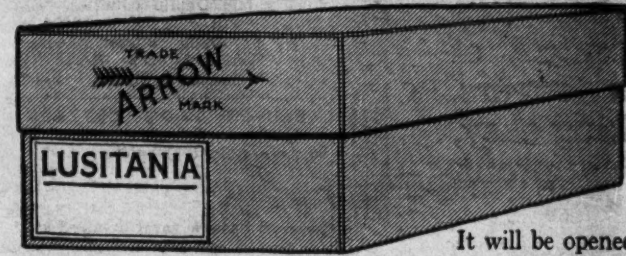

—Greensboro, April 13.—There was a revolting trial in a magistrate's court here this afternoon, when John Paul, a white man, was arraigned before Justice Collins on the charge of having criminally assaulted a feeble-minded girl whom, it was alleged, he had enticed from the Rescue Home. Owing to the nature of the evidence, the presiding magistrate was able to find the defendant guilty of only a simple assault. Paul was fined the limit, \$50, whereupon he took an appeal to the Superior Court. The evidence revealed a most pitiable and revolting condition of affairs.

—Tarboro Southerner: L. S. Cook, representing the Eureka Life Insurance Company, of Philadelphia, and the Provident Relief Association, of Washington, D. C., was found dead Sunday afternoon about 3 o'clock in a vacant tenement house on the farm of Mrs. Mary Long, near Speed. The man arrived in Speed Saturday, and told several persons he was a wanderer, without friends or relatives, and was trying to work his way to Norfolk for medical treatment. During the day, he was given food and money by Mrs. Long. Late Saturday night he inquired of Haywood Lloyd, colored for a place to sleep. Cook was given a blanket and directed to a vacant tenement house.

—Kinston, April 13.—An attempt was made to wreck the Norfolk & Southern shoofly train yesterday morning. A negro boy named Bill Williams flagged the train, running about forty miles an hour, as it was approaching the place of its contemplated destruction. As the train was approaching the 22-mile post about four miles west of Kinston Engineer Duncan, who was at the throttle, noticed a colored youth standing in the middle of the track, waving an improvised flag. Mr. Duncan stopped his engine within a few feet of the colored boy and the engineer, conductor and others ran out to ascertain the reason for flagging the train. Some one had removed all the spikes and fish plates from one of the rails and had left it in such a manner that the oncoming train would have been derailed and wrecked.

—DAVID—

Sometimes fat men have a hard time getting clothes that fit; so do very tall, thin men; so do several other odd sized fellows—chunky little "shortys," or very slender, boyish figures. Such men often say: "Ready-made clothes wont do for me."

If you're that kind of a man—any of those kinds—we'll surprise you with our Hart Schaffner & Marx clothes; we'll fit you better than you're used to, no matter who makes your clothes; we'll do it for less money than you think possible, and you'll get the Hart Schaffner & Marx all-wool quality; best clothes you ever saw, or wore.

For the Easter Promenade

This week will be an especially advantageous time for the selection of the new Spring apparel. For although Easter comes late this year we are ready now to supply your needs in correct dress. But the most vital purpose of this special display is the presentation of new ideas in Millinery, Gowns, Wraps, Gloves, Waists, Neckwear, Parasols, which we received since our opening. Everywhere there is evidence of readiness. In all lines throughout the house it has been our aim to combine the greatest degree of quality with very lowest possible prices.

Easter Millinery

A veritable show of Pretty Hats; of course the centre of all attractions up to Easter Sunday will be the Millinery parlors. The success of our Millinery business is owing to the fact that we have always sold a little better Hats for less money than could be found elsewhere. Our enormous outlet in wholesale and retail catering to both as we do in connection with our large work rooms where expert designers are busy as bees enables us to give you the advantage above mentioned. We also wish to call your attention to the immense variety in our Flower Department.

THE COTTON MARKET.

(By Wire to the Morning Star)

New York, April 14.—The cotton market was weak and unsettled again today with all months selling below 9c and making new low records. The close was very steady but at a net decline of 10 to 13 points. The sales of the day were estimated at 275,000 bales.

The market opened easy at a decline of 4 to 9 points in response to lower cables. There was some further Wall Street liquidation and scattered selling promoted by good weather over most of the South and poor continental trade reports but offerings were not so heavy as yesterday and during the middle of the morning prices steadied up to a net advance of 1 to 2 points.

Later the list again broke under forced liquidation, believed to represent long contracts, and during the afternoon the market was very weak with May declining at 8.79; July at 8.90; and October at 8.86, or 17 to 19 points net lower.

Selling orders were withdrawn just before the close and prices rallied from the lowest on covering. Receipts at the ports today 17,643 bales, against 20,928 last week and 14,479 last year. For the week 90,000 bales against 99,399 last week and 83,635 last year. Total receipts at New Orleans 5,830 bales against 1,990 last year and at Houston 3,976 bales against 4,512 last year.

Spot closed quiet, 10 points lower. Middling uplands, 10.00; middling gulf, 10.25; no sales.

Futures opened easy and closed very steady.

DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, April 14.—Converters of cotton goods are buying a little more freely as prices have now reached levels that give security in selling their finished products. The export trade is light, 500 bales of drills to India and 500 cases of prints to Manila being the recent features. Cotton yarns are weaker and lower. Linings for Fall will be shown in a few days. Cheaper mohairs and kid-finished linings have been reduced. The retail trade for the day was better and jobbers had quite a good business in wash goods departments.

NEW YORK STOCK MARKET.

(By Wire to the Morning Star.)

New York, April 14.—The inertia of the stock market proved too great today to overcome and the board room brokers were disposed to abandon the attempt, comparatively early in the day. The approach of a double or triple holiday is likely to have this effect on the market.

The arrest of the demoralized break in the cotton market had some effect of relief in Wall street where the slump yesterday was accompanied by rumors of collateral effects near the stock exchange.

The weekly review of the weather, by the Weather Bureau offered nothing unfavorable regarding the crops that has not been previously discussed and with corresponding effect on prices. Surprise is felt among New York bankers that the Secretary of the Treasury has not issued a call for withdrawal of additional government deposits owing to the growing plethora of money at this centre and the known needs of the treasury. It is thought highly probable that this expected call would be issued on the actual movement of any gold out of New York to a foreign destination.

This prospect may have accounted for a slight hardening in the time money market today, although this was not accompanied by an active increase in the demand for loans.

Bonds were irregular and very dull. Total sales, par value, \$2,860,000. United States 2s registered and the 3s registered advanced 1-8 and the 3s coupon 1 3-4 on call. Total sales today, 282,100 shares.

FOR FOUR NEW BATTLESHIPS

President Roosevelt Sends Another Message to Both Branches of Congress.

TELLS OF NEEDS OF NAVY

Senator Foraker Addresses The Senate on the Brownsville Affair. House Continues to Discuss Naval Appropriation Bill.

(By Wire to the Morning Star)
Washington, April 14.—The message of the President in support of his plan for an appropriation for four new battleships was received today by both Houses of Congress and attracted much attention.

The debate on the naval appropriation bill was under full sway in the House when the message arrived.

A typographical error in the print of the message was seized upon by those opposed to the four battleship plan to delay the reading, in the hope that the provision relating to the battleships would be first reached and thereby discount any effect the message might have in bringing members over to the President's view.

Consequently the bill was not laid before the House until just before the close of the day's work. It was enthusiastically received by the advocates of a larger navy.

The "antis" later gave vent to their feelings by applauding a petition from a number of citizens of New York, which was read at the instance of Mr. Tawney, protesting against the extravagance of spending over sixty millions of dollars for four battleships. It was evident that the opponents of four battleships were in the majority although the final vote will be close.

On an objection by Mr. Williams, Mr. Hobson was prevented from having read a memorial from laboring men favoring the building of more ships.

The message was a brief but vigorous contention for the rapid development of the navy. It was in part as follows:

"To the Senate and House of Representatives:

"Let me again urge upon the Congress the need of providing for four battleships of the best and most advanced type at this session. Prior to the recent Hague conference it had been my hope that an agreement could be reached between the different nations to limit the increase of naval armaments, and especially to limit the size of warships. Under these circumstances I felt that the construction of one battleship a year would keep our navy up to its then positive and relative strength. But actual experience showed not merely that it was impossible to obtain such an agreement for the limitation of armaments among the various leading powers, but that there was no likelihood whatever of obtaining it in the future within any reasonable time. Coincidentally with this discovery occurred a radical change in the building of battleships among the great military nations—a change in accordance with which the most modern battleships have been or are being constructed, of a size and armament which doubtless or more probably trebles their effectiveness. Every other great naval nation has, or is building a number of ships of this kind; we have provided for but two and therefore the balance of power is now inclining against us. Under these conditions, to provide for but one or two battleships a year is to provide that this nation, instead of advancing shall go backwards in naval rank and relative power among the great nations. Such a course would be unwise for us if we fronted merely on one occasion. As chief executive of the Nation, and as Commander in Chief of the Navy, there is imposed upon me the solemn responsibility of advising the Congress of the measures vitally necessary to secure the peace and welfare of the Republic in the event of international complications which are even remotely possible. Having in view this solemn responsibility, I earnestly advise that the Congress now provide four battleships of the most advanced type. I cannot too emphatically say that this is a measure of peace and not of war. I can conceive of no circumstances under which this Republic would enter into an aggressive war; most certainly under no circumstances would it enter into an aggressive war to extend its territory or in any other manner seek material aggrandizement. I advocate that the United States build a navy commensurate with its powers and its needs, because I feel that such a navy will be the surest guaranty and safeguard of peace. We are not a military nation. Our army is so small as to present an almost absurd contrast to our size. It is properly treated as little more than a nucleus for organization in case of serious war.

"The very liberty of individual speech and action, which we so prize and guard, renders it possible that at times unexpected causes of friction with foreign powers may suddenly develop. At this moment we are negotiating arbitration treaties with all the other great powers that are willing to enter into them. Yet it is idle to assume that this world has yet reached the stage, or has come within measurable distance of the stage, when a proud nation, jealous of its honor and conscious of its great mission in the world, can be content to rely for peace upon the forbearance of other powers. It would be equally foolish to rely upon each of them possessing at all times and under all circumstances and provocations an altruistic regard for the rights of others. Those who hold this view are blind indeed to all that

has gone on before their eyes in the world at large. They are blind to what has happened in China, in Turkey, in the Spanish possessions, in Central and South Africa, during the last dozen years. For centuries China has cultivated the very spirit which our own peace-at-any-price men wish this country to adopt. For centuries China has refused to provide military forces and has treated the career of the soldier as inferior in honor and regard to the career of the merchant or of the man of letters. There has been so large an empire which for so long a time has so resolutely proceeded on the theory of doing away with what is called "militarism."

Whether the result has been happy in internal affairs I need not discuss. In external affairs the policy has resulted in various other nations now holding large portions of Chinese territory while there is a very active fear in China lest the empire, because of its defenselessness, be exposed to absolute dismemberment, and its well-wishers are about to help it only in a small measure, because no nation can help any other unless that other can help itself.

"Events still fresh in the minds of every thinking man show that neither arbitration nor any other device can as yet be invoked to prevent the gravest and most terrible wrongs done to peoples who are either few in numbers or who, if numerous, have lost the first and most important of national virtues—the capacity for self-defense.

"To carry out this policy is but to act in the spirit of George Washington; is but to continue the policies which he outlined when he said: 'Observe good faith and justice toward all nations. Cultivate peace and harmony with all.'

"There is a rank due to the United States among nations, which will be withheld, if not absolutely lost, by the reputation of weakness. If we desire to avoid insult, we must be able to repel it, if we desire to secure peace, one of the most powerful instruments of our rising prosperity, it must be known that we are at all times ready for war. THEODORE ROOSEVELT
"The White House, April 14, 1908."

When the naval appropriation bill was taken up by the House there still was pending an amendment by Mr. Jones, of Virginia, striking out the appropriation for developing the naval station at Subig Bay, Philippine Islands.

The controversy between the army and the navy as to which is the most desirable place, Cavite or Subig Bay for fortification and protection, was condemned by Mr. Crumpacker, Indiana, who said that the administration should not ask Congress for money for both places until the question was settled one way or the other.

In the Senate.

Applause that smothered the oft-repeated poundings of the Vice President's gavel attested the warmth of the reception given by the crowded galleries of the Senate to the speech of Senator Foraker made in defense of the colored soldiers of the 25th Infantry, discharged without honor by the President because of their supposed connection with the Brownsville affair.

Never in the history of the Senate have the galleries been so fully surrendered to representatives of the negro race, more than half of the crowds that filled every available seat and standing room being occupied by them.

The Senator began his remarks by saying there was evidently a misapprehension concerning his speech and read from a newspaper clipping to the effect that he was to deliver a three-days' speech in denunciation of the President and the Secretary of War. He laughingly disavowed his intention to do either of the things charged against him.

"The purpose of this investigation has not been to embarrass the President or anybody else," said Mr. Foraker, "nor has it been to make any capital of any kind, political or otherwise, against anybody or for anybody."

TWO MORE BODIES FOUND.

Five Are Known to Have Been Killed in Chelsea's Fire.

(By Wire to the Morning Star)
Boston, Mass., April 14.—The remains of two persons, a man and a woman, were found today in the ruins of Sunday's fire at Chelsea. The bodies found today were thought to be those of Mrs. John B. Hake and Willard C. Sanborn, a carpenter. The three bodies found previously have not been identified.

The search of other places is to be continued. The police made an examination of the premises at 62 Chester Avenue, where Dr. J. B. Fenwick resided. Mrs. Fenwick and her niece have not been seen since the fire and their relatives fear that the bodies are in the ruins of the home.

Early today the police arrested Daniel Ross, who was waving lighted tapers of paper in a lumber yard, and he was held under \$2,500 bail on the charge of attempted incendiarism. Investigation into the rumored stories of incendiarism on Sunday brought out no results.

The relief measures have been continued and offers of a most generous nature have come from all sources. Tonight twenty companies of militia were withdrawn from duty in the burned area, and but one battalion was left on guard after the night.

CARS RUN IN PENSACOLA.

Troops Are Still on Guard and No Violence Attempted.

(By Wire to the Morning Star.)
Pensacola, Fla., April 14.—For the first time in nine days cars were operated over two of the lines of the Pensacola Electric Company this afternoon. The State militia was lined up on both sides of the streets and no violence was attempted.

The only disorder of the day occurred when one of the imported men was arrested for violation of the city ordinance. A crowd of several hundred collected and made a rush for the car, but the troops quickly forced them back at the point of their bayonets.

At dark all cars were run into the barns and no attempt was made to operate cars tonight.

TO INSTRUCT OR NOT TO INSTRUCT

That's The Question That is Agitating The New York State Democrats.

MUCH OPPOSITION TO BRYAN

Sub-Committee on Resolutions Reported Against Instructing Delegates to National Convention by a Vote of Six to One.

(By Wire to the Morning Star.)

New York, April 14.—Sharp political skirmish fire during the first session of the Democratic State convention today which developed a well entrenched opposition to an instruction of New York delegates to the Denver National Convention was followed tonight by a general engagement of all the Bryan forces to force the committee on resolutions to endorse the candidacy of William Jennings Bryan for Presidency, by instructing the delegates to the National convention for him.

While the first session of the convention at Carnegie hall was apparently devoid of those incidents that betoken conflicting policies there were moves and counter-moves that led to the appointment of a sub-committee of the committee on resolutions to consider the proposition of instructing delegates for Bryan.

It was before the committee that Augustus Thomas and those interested in Mr. Bryan's candidacy made a determined stand tonight, the latest indications were that William J. Connors of the State committee and Chas. F. Murphy leader of Tammany Hall were adamant in their determination for an instructed delegation.

Meanwhile a series of contests was being adjudicated tonight by the committee on credentials and there were indications for an all night session. The committee on delegates at large and electors held a brief session after the adjournment of the committee and adjourned to hold another meeting tomorrow morning. The delegates at large tentatively selected are W. J. Connors, Charles F. Murphy, Lewis Nixon and Judge Alton B. Parker.

The opening of the convention was delayed for nearly two hours until a modification could be secured of the court order obtained by Senator McCarran to prevent his delegations from being unseated. Thomas Carmody, of Penn Yan, temporary chairman of the convention made the opening address. With the roll call concluded, the first move to shut off the presenting of names of Presidential candidates before the convention was a motion made that all resolutions made, except those relating to routine business be referred to proper committees without being read. The motion was adopted without its significance being understood and it was not until several routine resolutions had been adopted that a Bryan delegate made a motion to amend it by having all resolutions read before being referred. In the turmoil on the floor at the time, the delegate with the amending motion was not recognized. Meantime E. S. Coatesworth of Erie county had submitted a resolution that delegates to Denver be instructed for Bryan but at this point the convention adjourned until tomorrow at noon.

The leaders opposed to an instructed delegation took cognizance of the united front which Mr. Bryan's friends were putting forward, and it was deemed advisable to have a special committee of the resolutions committee consider the claims of Mr. Bryan's friends for an instructed delegation. This sub-committee, made up of John F. Brennan, of West Chester, chairman; Norman E. Mack, of Erie; H. A. Reeves, of Suffolk, William Townsend of Nassau; Albert Hessburg, of Albany; State Senator Thomas F. Grady, of New York, and City Comptroller Herman Metz met tonight. Mr. Mack submitted to the committee the resolutions drawn by the Bryan progressive league committee. A letter from Augustus Thomas was read and Mr. Thomas was permitted to appear before the sub-committee, and make an appeal. The sub-committee then decided, by a vote of 6 to 1, to report to the resolutions committee against an instructed delegation for Mr. Bryan.

With the fight for Bryan now before the whole committee on resolutions the Bryan forces declared that if the committee adopted the recommendation of the sub-committee a final effort would be made to bring before the convention a minority report which would bring the issue squarely before the 906 delegates.

The action of the sub-committee is taken to mean tonight, however, by party leaders as an unmistakable sign of defeat for the Bryan forces.

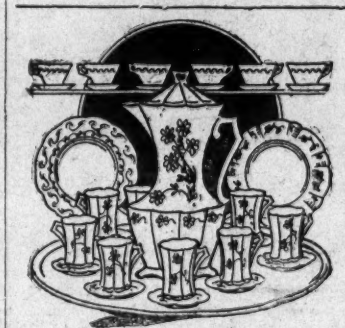

"Battling" Nelson signed articles yesterday to fight 45 rounds with "Boer" Unholz before a San Francisco club on the afternoon of May 16, the weight to be 133 pounds. The men are to fight for 50 per cent. of the gate receipts.

Neighborhood Favorite.
Mrs. E. D. Charles, of Harbor, Maine speaking of Electric Bitters, says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at R. R. Bellamy's drug store. 50c.
